PROFESSIONAL SUMMARY

Computer Science & Engineering graduate with practical experience in web development, teaching, academic mentoring, and project work. Hands-on knowledge of HTML, CSS, and JavaScript, with ongoing development in React.js, Node.js, and MongoDB. Strong in communication, teamwork, presentation, and structured problem solving. Seeking an entry-level software or web development opportunity where technical skills can be applied to real-world products.

TECHNICAL SKILLS

Programming & Web: HTML, CSS, JavaScript, Responsive Web Development
Development: React.js, Node.js, MongoDB
Productivity Tools: Microsoft Word, Excel, PowerPoint, Canva
Professional Skills: Communication, Teamwork, Team Management, Presentation, Multitasking

PROJECTS

Fit-Log GitHub | Live Demo
- Developed a fitness tracking web application for organizing and monitoring workout-related activities.
- Designed a responsive user interface with a focus on clear navigation and a practical user experience.

Assignment 5 GitHub | Live Demo
- Developed and deployed a responsive web project as part of a programming assignment.
- Implemented the project interface and functionality with a focus on clean structure and usability.

Book Vibe GitHub | Live Demo
- Developed a web application centered around discovering and presenting book-related content.
- Built and deployed the project using a modern web development workflow with Next.js.

Football Dream 11 GitHub | Live Demo
- Developed an interactive football-themed web application inspired by fantasy team-building experiences.
- Created a responsive interface focused on player/team presentation and user interaction.

EDUCATION

B.Sc. in Computer Science & Engineering | City University, Savar, Dhaka | 2026 | CGPA 3.27
Higher Secondary Certificate (H.S.C.) | Afaz Uddin School and College | 2021 | GPA 4.50
Secondary School Certificate (S.S.C.) | Hatirdia S.A. Model High School | 2019 | GPA 4.72

EXPERIENCE

Private Tutor | 3 Years
- Provided structured academic support and personalized guidance to students.
- Explained complex topics clearly and adapted teaching methods to individual learning needs.

ACADEMIC THESIS

Machine Learning Based Crop Yield Prediction Using Climate & Remote Sensing Data for Food Security Planning
- Academic thesis focused on applying machine learning with climate and remote sensing data for crop yield prediction.

CERTIFICATION

Computer Office Application, National Skill Standard Basic Course | Bangladesh Technical Education Board (BTEB)
6 Months / 360 Hours | Grade A | July–December 2022

ADDITIONAL INFORMATION

Languages: Bangla: Native | English: Professional Working Proficiency
Activities: Volunteer and event management activities with CSE Club. Team sports: Football, Cricket, Badminton. Tree plantation and social activities.
